It's Up to Wife to Add Spice to Life

When a husband and wife find their life becoming dull, they often make the mistake of beheving they're bored with each other, instead of with the sameness of their daily routine.

And that's when the husband begins to put in longer hours at the office, gets involved in organizations and meetings, goes in for hobbies he can pursue alone, starts stopping off at a tavern when his day's work is done or goes off on hunting and 4 medium (114 pounds) ap- fishing trips with men friends.

QUESTION: In Revelations 10:12 it says: "And the books were opened." What does this mean? -H. H.

ANSWER: This introduces one of the most majestically solemn events that shall ever occur to a human being. It is a picture of the judgment of God when He is going to open the books which are being kept on our account in Heaven. There wilt be the book of our memory, in which all things that have ever imwill be the book of our conscience, in which all things are estimated according to the character we gave them as good or bad.
